

Mine-water Energy Toolkit – 3D Interactive Model Illustration

<https://www.nordic.energy/interactive-map/>

Screenshot – Bridgend County Borough Council region showing overlay of mine-water energy opportunities using a green palette. The darker the green area, the better the mine-water energy opportunity.

Screenshot – demonstrating the 3D capability with the green shading (mine-water energy opportunity indicator) following the topography of the landscape.

Screenshot – Upper Llynfi Valley leading into Caerau showing mine-water energy opportunities and example of the building level information that sits behind the model. This data applies to an individual home.
