SITE

This site is located immediately to the north-east of the Maesteg town centre. In order to carry out the satisfactory reclamation of the site, a number of tips and steep slopes have been reprofiled and landscaped. Educational, housing, light industry and recreational end uses are considered appropriate for this site.

The site is allocated in the UDP and is in BCBC ownership. The residential element is expected to come forward as the new school is now open and the necessary infrastructure is available to serve the residential elements on the two lower parts of the site. These units are reflected within the five years on the schedule. Property Services are looking to market the site. The remainder of the site is in 3(i).

SITE:

The site is being developed by Hafod Care Association for assisted living units for the elderly in conjunction with the 78 bed nursing home. The remaining 30 units represent the second phase of the development project and involves the construction of an articulated row of units located to the east of the existing new buildings. No issues have been raised in respect of the proposed architecture, ecological matters or other technical matters.

The Site forms part of the North East Brackla Regeneration Area which is being promoted as an employment-led mixed-use regeneration scheme retaining and providing additional jobs and homes (350 residential units) and flexible commercial and recreation facilities to serve the new community, the industrial estate, the village of Coity and the wider residential community of Brackla to the south. A Development Brief has been approved to provide a planning policy document to guide the comprehensive and phased development of land at, and surrounding, Brackla Industrial Estate over the next 10 to 15 years. The Development Brief sets out a framework to guide the appropriate development of the area.

Discussions have taken place with the land-owners regarding the submission of a future planning application for the site.

This site should be considered in conjunction with Wyndham Close, Brackla, Bridgend (LPA Reference: 45).

SITE:

The site forms part of the North East Brackla Regeneration Area which is being promoted as an employment-led mixed-use regeneration scheme retaining and providing additional jobs and homes (350 residential units) and flexible commercial and recreation facilities to serve the new community, the industrial estate, the village of Coity and the wider residential community of Brackla to the south. A Development Brief has been prepared to provide a planning policy document to guide the comprehensive and phased development of land at, and surrounding, Brackla Industrial Estate over the next 10 to 15 years. The Development Brief sets out a framework to guide the appropriate development of the area.

This site should be considered in conjunction with Land at Princess Way, Brackla (LPA Ref No:457). Lovell Partnerships Ltd and Link Cymru have amended the design and increased the capacity of the site to 99 units. Due to ongoing S106 negotiations development is not anticipated to start until late 2012. LPA and applicants are looking to resolve S106 negotiations before the determination of the planning application.

The application site is not entirely contiguous with the UDP allocation; however it forms part of the residential element of the reconfigured area, subject to the Development Brief and is consistent with the emerging LDP.

BRB (Residuary) have now sold the site: <http://www.brbrlandsales.co.uk/sites/bridgend/>
New owners are seeking pre-application planning advice. Due to limited information site remains in 3(i).

The site will be considered as part of the wider mixed use area. The site forms part of a 6.4 hectare brownfield site which is substantially vacant despite its prime location, close to the town centre. The site offers the opportunity for a mix of uses including residential (140 units), a retained area of employment, recreation and a proposed Park & Ride facility, in connection with the existing Wildmill Railway Halt.

There has been indication to release this site to a developer and potential access has been retained through adjoining sites. The site has not been sold, although a major house builder has expressed an interest. As with the rest of the residential allocation part of the site is located with a C2 Floodzone and is located in close proximity to a Grade II listed building. The site is a continuation of development of the wider housing allocation.

SITE:

The landowner has instructed agents to engage in the LDP process, previously submitting a Candidate Site for the land. Recent contact with the agent confirms that there is considerable interest from national house builders and these approaches have been communicated to the landowner.

There are no significant constraints that can not be adequately mitigated. In support of the LDP proposals the land owner has completed Phase I habitat survey and flooding assessment. Looking to bring site forward within 5 year period.

Pre-application discussions with potential housing developers have taken place.
